Subject: AOL vs Microsoft

This is to request that you decide favorably for Microsoft in this above referenced case. AOL's case has been filed at a very suspicious time. Also from my determination of the facts of this case, this issue has been previously covered in prior, or ongoing, legal action. Hopeful this case can be quickly dismissed and or settled so that these firms may get back to their business at had, and provide the services that, we as customers, may benefit from.
